SUMMARY

Motivated and detail-oriented Front End Web Developer and recent graduate of the University of Port Harcourt. Passionate about building clean, responsive, and visually engaging web experiences. Proficient in HTML, CSS, and JavaScript, with hands-on experience developing real-world projects including landing pages, SaaS interfaces, and interactive web applications. Eager to contribute to a dynamic team and grow through professional experience.

TECHNICAL SKILLS

Languages & Markup: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: React

Tools & Platforms: Git, GitHub, VS Code, Netlify, Formspree

APIs: OpenWeatherMap API, RESTful APIs

Other: Responsive Web Design, LocalStorage, Performance Optimisation, UI Development

PROJECTS

MuskGate | HTML, CSS

- Crypto and fintech landing page featuring a navbar, features grid, testimonial section, jobs listing, and a detailed multi-column footer.
- Deployed live on Netlify.

Aroma Club | HTML, CSS

- Coffee subscription landing page featuring a navbar, features section, testimonial, and a call-to-action section.
- Deployed live on Netlify.

Ascent Analytics | HTML, CSS

- SaaS analytics landing page with a features section, comparison layout, testimonial card, and a call-to-action section.
- Deployed live on Netlify.

The Flow | HTML, CSS, JavaScript, LocalStorage

- Task manager application with priority levels, due dates, filtering by status, and persistent data storage using localStorage.
- Deployed live on Netlify.

Weather Ready Wardrobe | HTML, CSS, JavaScript, OpenWeatherMap API

- Weather application that fetches real-time data using the OpenWeatherMap API and suggests outfit advice based on current conditions and a 3-day forecast.
- Deployed live on Netlify.
